NEWS BY TELEGRAPH

The Ponca Chiefs Now in Washington Express Anxiety Concerning Education.

A Silly Report to the Effect that Grant is Bitter Toward Certain Republicans.

A Land League Meeting Held in New York—Increase of Duties in Russia.

Three Hundred and Twenty Thousand Emigrants for 1880.—Storm in New Jersey.

An Improbable Story.

Chicago, Dec. 27.—The Tribune has an improbable story from Washington that notwithstanding the cordiality with which Grant entered the late republican campaign he cherishes and does not hesitate to express very bitter feelings towards some of the leaders for the kind of warfare they made on him at Chicago convention. During his late visit in New York he took occasion to let Senator Blaine understand that he regarded his conduct in the convention, with attacks on Grant as so far transgressing proper bounds as to put an end to personal intercourse. This he did by declining to see Senator Blaine when he called. When Grant a few days afterwards was received by the senators he was the only one who did not go forward to be presented. Commenting while in New York upon those things in Blaine's course which displeased him Grant said he would never speak to him again. Friends of Grant severely criticize the utterances of Sherman in opposing the proposition to make Grant Captain General. This dissatisfaction with Sherman is not so much over the merits of the case as because they regard this attitude of Sherman as indicating gross ingratitude Grant's military friends are well aware that Sherman has been under constant and deep obligations to Grant and but for the magnanimity of the latter Sherman's military record would have suffered. Aside from these things, of which the public will have a clearer idea when the publication of the records of war is completed, it is regarded as little less than ludicrous for Sherman to suggest at the proposition to create a new officer for Grant on the ground "that for the life of him he can not see what a Captain General would have to do, or of what use he would be."

The Land League in America.

New York, Dec. 27.—At a meeting of the 4th ward branch of the Irish national land league here yesterday Stephen J. Meany, who had just returned from Ireland, denounced the so-called Agrarian outrages there as inventions. There may have been a few rash acts on the part of individuals, but such conduct is without sympathy from the masses of Irish people and is especially deplored by the leaders of the land league. The Irish people are in an attitude of positive resistance to extortion and evictions. The Griffith valuation on which the government and municipal taxes are based it is claimed by the tenants is the basis on which their rents should be calculated, but four or five times the amount so arrived at is demanded by the landlords in nearly every case and the tenants merely offer the proper amount and if it is refused the money is put in their pockets and used for their families. Then comes proceedings for eviction, and to defray legal expenses necessary to relieve their fellowmen from the grip of the law is one of the first uses to which the money contributed by the Irishmen in the United States will be put. The land league of the 5th ward had a regular meeting on Varick street yesterday. Hugh King, the president, on taking the chair, said that since he had been treasurer of the general council he had remitted one hundred pounds sterling weekly to Ireland. Money was coming in from all sides. It was announced that a convention of the leagues of the United States would be held in Buffalo on the 17th inst. The attendance at both meetings was small but enthusiastic.

The Ponca.

Washington, Dec. 27.—The Ponca Indian chiefs to-day had a long talk with Secretary Schurz at the Interior Department. Buffalo and White Eagle were the principal spokesmen and in making known their wishes seemed anxious about the educational advantages for their children. The Secretary informed them that school houses are now being pushed to completion as rapidly as possible. He said he hoped the pending Indian severalty bill would be passed during the present session of Congress and that as soon as it became a law each one of them would be given a farm the title to which will be as valid as that of any white man. At the conclusion and after explanations by the Secretary, the chiefs signed a paper that they had requested to be drawn up to remain on their present lands in the Indian Territory and establish permanent homes. They express their willingness to relinquish all their interest in the lands formerly owned and occupied by the Ponca tribe in Nebraska and the Territory of Dakota in compensation for their land.

A Storm.

New York, December 26.—A storm on New Jersey coast has raged for the last seventy-two hours. The summer residence, Manmouth, on the beach was damaged to the extent of forty thousand dollars. The roads about Long Branch are blocked with snow; some of the drifts are ten feet deep. At Coney Island the sea swept away the plaza of the Central Hotel and carried off about two hundred feet of bulk head. At the Manhattan beach hotel the iron pier remains in tact but some outlying bath houses were washed into kindling wood.

Will be Active.

New York, December 27.—The dividends which will be paid by corporations out of the profits of the last half of the year will probably exceed that of last year. All classes of business have been very profitable and these payments will make active money markets this week. It is calculated that holders of five per cent. bonds when paid will prefer to invest in stocks of paying dividends on a basis of five per cent. than to buy three or three and a half per cent. government bonds.

Murdered.

Allentown, Pa., Dec. 27.—Jacob Gogeland and wife, residing four miles from Bethlehem, were found dead in bed this forenoon with their heads nearly severed from their bodies. An ax was found in the room and the walls were splashed with blood. John Suvver who boarded with Gogeland was believed to be the murderer and he was caught by an infuriated mob, and after acknowledging the crime was hanged to the nearest tree.

Bernhardt at Chicago.

Chicago, December 27.—The sale of the season tickets to the Bernhardt performance at McVickers began to-day and when the box office closed about \$6,500 worth had been taken. There was a live warfare made on professional sculptors by the manager McV., which prevented considerable sale.

From Over the Sea.

New York, December 27.—The immigrants arrived here by sea from January 1st 1880, to date number 318,937 and will probably exceed three hundred and twenty thousand before the 31st; this is the largest number yet recorded within the period of eleven months.

Shooting at Denver.

Denver, Dec. 27.—B. R. Cairns, a young man, was shot and seriously wounded in the right arm about midnight last night while going home with a friend, who used offensive language to Cairns who knocked him down, and then was shot as above stated.

Will Increase.

Berlin, December 27.—There is considerable excitement in the political and commercial circles caused by the seemingly authentic news that Russia has resolved to increase the custom duties on all imported wares ten per cent.

Bernhardt's Success.

Chicago, Dec. 27.—The Times account of Sarah Bernhardt's Montreal season differs from other accounts sent out. It says that it was in no sense a success. The auditorium was only half filled at Christmas and ticket speculators lost heavily.

Dead.

New York, Dec. 27.—A special to the Evening Post says that Rev. Dr. Chapman died yesterday. His friends have known for a long time that his recovery was impossible. He was born on the 29th of December, 1814; was a native of New England and was finely educated and one of the brightest lights of the Universalist church.

Under a Cloud.

Chicago, Dec. 27.—The sun appeared this forenoon for the first time in a fortnight. The weather has been moderate but gloomy. It was very cold last night and is now nearly zero. At Manitoba it is four below zero; at St. Paul sixteen below.

Burned to Death.

Logan, Ia., Dec. 27.—Sunday afternoon John McKenney, an old man, went to his room with a bucket of coals to warm the room, some hours after his body was found on the floor burned to a crisp.

Arrested.

Chicago, Dec. 27.—The Journal's Detroit special says that twenty of the richest and most influential liquor dealers were arrested to-day for keeping saloons open on Christmas.

Sugar Factory.

Montreal, December 27.—A French firm, intend to erect five sugar factories in this province and will turn out two and one-fourth million pounds of sugar annually.

Burned.

Kirkwood, Mo., Dec. 27.—Nine frame buildings were burned here to-day. Loss \$30,000.

Asleep on Duty.

Yesterday morning the first section of No. 106, Conductor Blasingham, came into the yard at Vegas about half past five o'clock and after turning the train over to the yard hands the crew left, and the section was drawn up till the end of the caboose stood opposite the entrance to the railway offices. It had been standing there about five minutes when the light from locomotive 363 hauling the second section came in sight. It is customary for the train to come to a halt about opposite the water tank, where the locomotive is cut loose and the train is then hauled up by the switch engine. The train on that occasion kept on by the tank, and several men in the yard yelled to the engineer, but still it kept on at a twenty mile-an-hour rate. As it passed the switch, the switchman flung his lantern through the window, but no one appeared to see what was up. Shortly, however, the train did come to a stop, when it came up dead against the rear end of section No. 1. There was a terrible racket and the cars were bunched together, the caboose and the flat car just in front rear up in pyramid form. The flat car kept poised a moment and then toppled over into a pile of kindling wood on the platform in front of the railway hotel. The rear end of the caboose was stove in and both platforms broken up, while a second flat car was badly broken up and still another had the trucks knocked out from under it. Conductor Blasingham was just stepping from the caboose, and kept his position all the time, with one foot on the pilot and the other on the platform, holding a pail in his hand. Brakeman Jones was engaged in making up his bunk in the rear of the caboose and he was tossed eight or ten feet striking the top and bottom of the car at the same time, but was only slightly injured. It is said that the engineer and head brakeman, who was a green hand was shoveling in coal, little dreaming that they were nearing a station.
